

EXPERIENCE
PEOPLE AND CULTURE.

For the presentation of your Slow Trips destinations on our social media channels on Instagram (slowtrips.eu) and Facebook (www.facebook.com/SlowTripsEurope) we need:

- Editable short videos - you must have the rights to the material
- If there are no videos – please send us some Images
- In audio form in the national language: name of your LAG and your personal name
- In audio form in the national language: What does slow trips mean in your region and what are your special regional highlights?

With this material we will create short videos with a length of max. 60 seconds. Even more, the short videos are underlaid with German and English subtitles and these are gradually published on the social media channels.

Please upload this material on G-Drive AFTER you have completed your website texts for your destinations:
